PREFACE

This is the ninth edition of the Montana Health Data Book and Medical Facilities Inventory.

The Montana Health Data Book and Medical Facilities Inventory makes available health information and health utilization data. The Data Book and Facilities Inventory is a guide to assist the public and health professionals in the conduct of their work and pursuit of health planning interests.

The extensive nature of health data for Montana makes it impossible to impart all the data in a concise and brief presentation, so in an effort to make this health data accessible, we mention the following agencies and their respective data responsibilities:

1. The Montana Hospital Association: Expenditure data and financial information.

2. Montana Hospitals Rate Review System: Information on charges for their member hospitals.

3. Records and Statistics Bureau: Vital Statistics Reports.

4. The Montana Foundation for Medical Care: Medicare and Medicaid information -- diagnostic and special studies.

5. The Emergency Medical Services Bureau: Information about emergency personnel, ambulances, and training of personnel, etc.

6. Montana Blue Cross and Blue Shield, Inc.: Intermediary for Medicare Cost Reports and financial and revenue information for Montana hospitals and also information about their subscribers.

7. The Department of Social and Rehabilitation Services: Information about nursing homes and Medicaid Information.

8. The Department of Commerce (Census and Economic Information Center): Census information.

HOSPITALS

1987 HOSPITAL REPORTS

The following pages contain information from the 1987 Annual Survey of Hospitals conducted by the Montana Department of Health and Environmental Sciences with the assistance of the Montana Hospital Association.

The calculated parameters are defined as follows:

$$\text{Percent Occupancy} = \frac{\text{Total Inpatient Days}}{(\text{Licensing List Beds} \times 365)} \times 100 \text{ Percent}$$

$$\text{Possible Bed Days} = \text{Licensing List Beds} \times 365$$

$$\text{Average Daily Census} = \frac{\text{Total Inpatient Days}}{365}$$

$$\text{Average Length of Stay} = \frac{\text{Total Inpatient Days}}{\text{Total Admissions (Inpatient)}}$$

LONG-TERM CARE

NOTES ON 1987 LONG-TERM CARE SURVEYS

Estimates were calculated for some facilities due to either non-reporting of data or only partial reporting for the year.

The section on Age Groups is based on a one-day view of patient census on the last day of each facility's reporting period.
